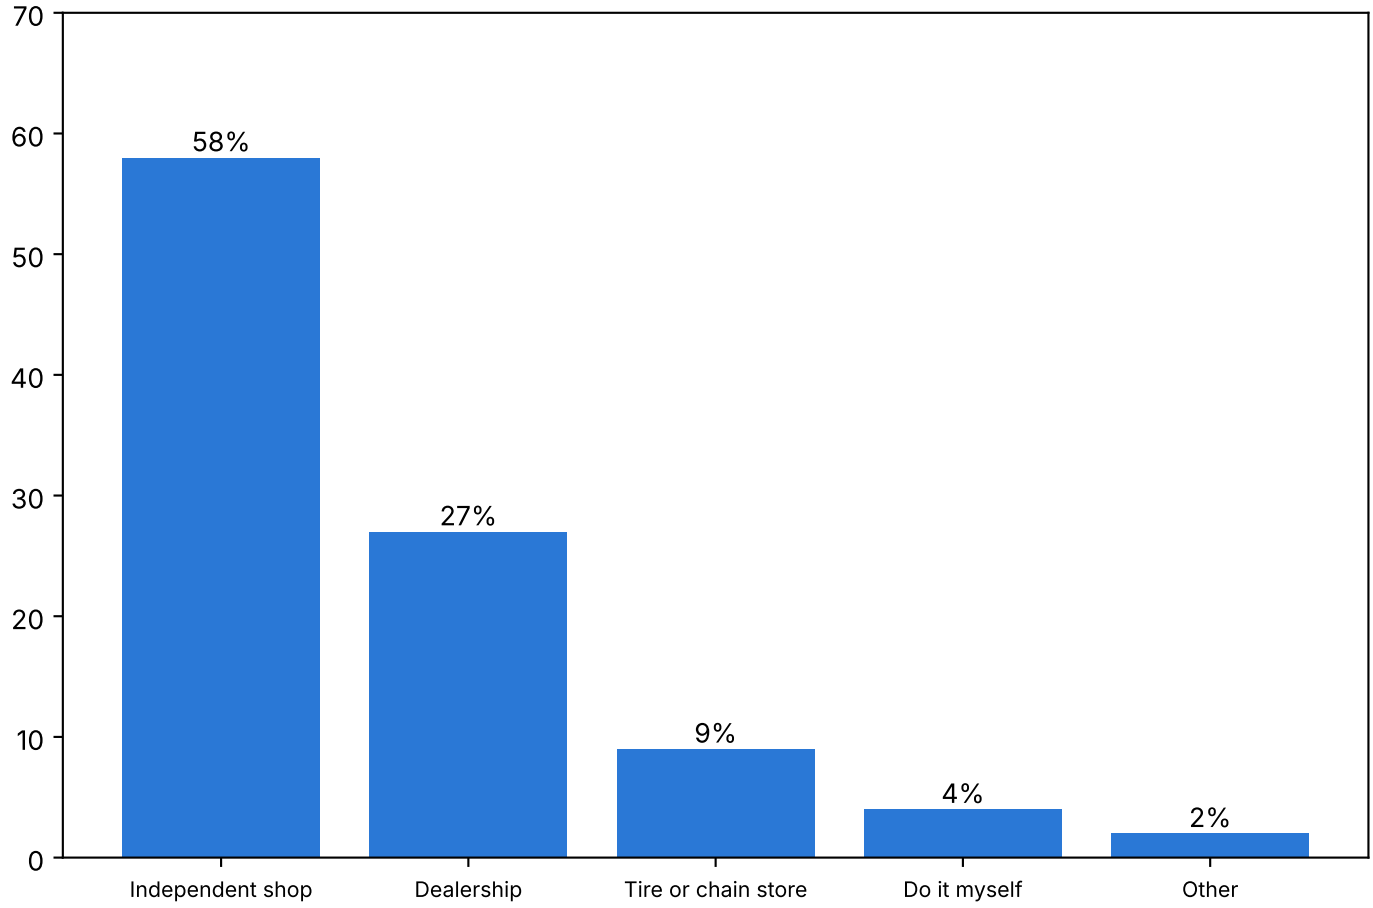
Where Canadians service their vehicles: Test edition

Published March 2026

An online survey of 2,000 Canadian vehicle owners conducted in January 2026 about where they get maintenance and repairs and why.
Key finding: 58% of owners used an independent shop for their last repair.

Figure 1. Where owners had their last repair done, 2026



Base: all vehicle owners, n=2,000. Question: Where did you have your most recent repair done?

Figure 2. Agreement with statements about service providers

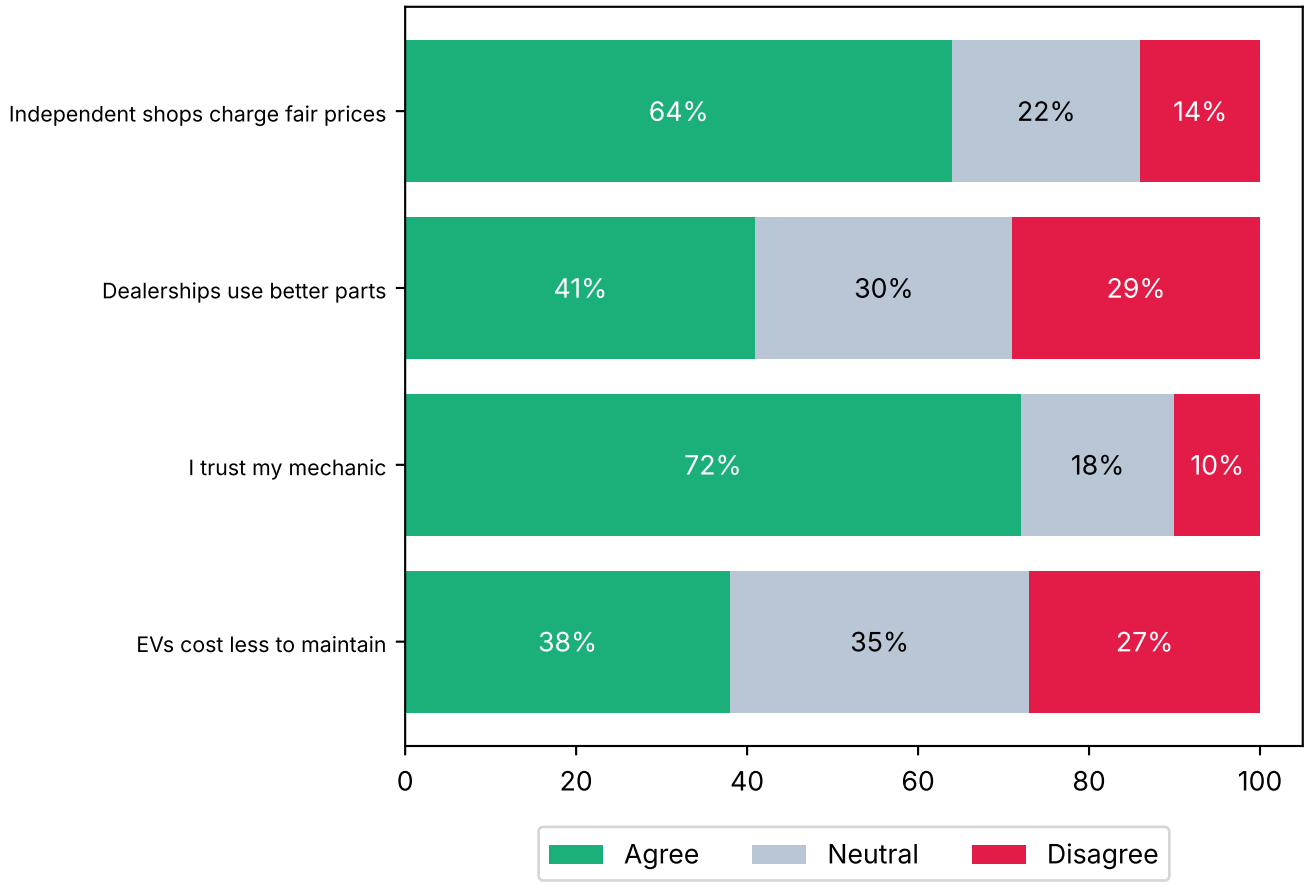


Table 1. Average amount spent on maintenance and repair in the past 12 months, by region

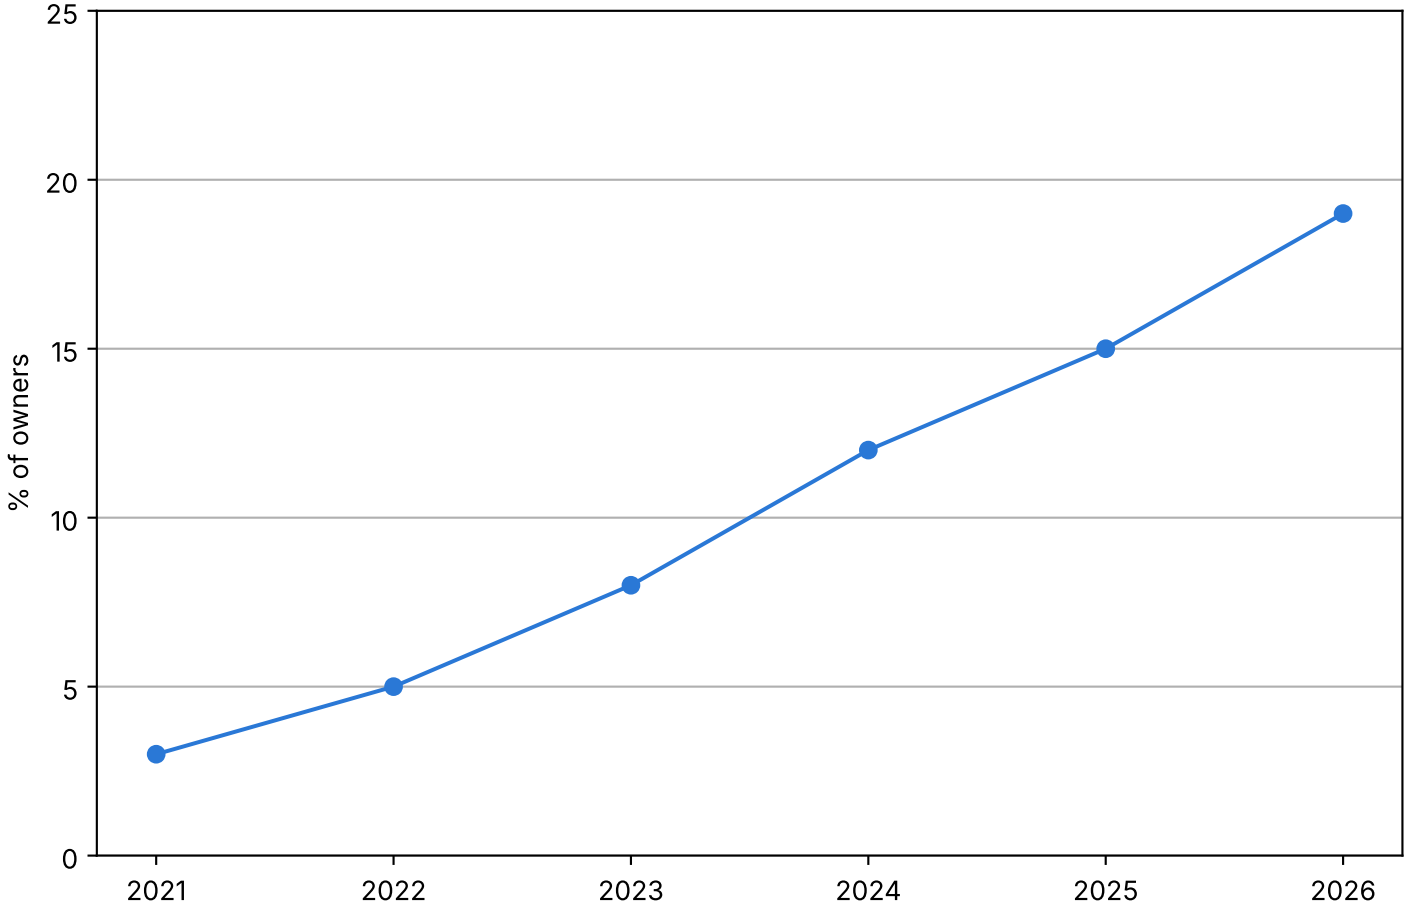
Region	Average spend ($)	Share who spent nothing (%)
British Columbia	1,240	11
Prairies	1,105	13
Ontario	1,180	12
Quebec	960	15
Atlantic	1,020	14

Figure 3. Share of respondents who own an electric vehicle, 2021-2026



Methodology

This is synthetic test data used to check the AIA Canada Research Hub reader.
No real survey was conducted.
